Dots and Boxes

Two Players

Directions: Each player needs a different colored crayon or pencil. Player 1 starts by drawing a line connecting two dots anywhere on the grid. Next, player 2 draws a line joining two dots anywhere on the grid. Take turns drawing lines joining two dots at a time. You can only draw lines horizontally and vertically, not diagonally. The goal of the game is to complete the fourth side of a square. Put your initials in the box after you make a full square. The person with the most boxes wins!
Underwater Themed Crossword

**Down**

2. A creature that lives in a shell that it carries on its back and moves very slowly.
7. A large area of water that is surrounded by land.
8. A reptile that lives on land and water with a green shell.
9. A green or brown plant that grows on land and sea.

**Across**

1. Very small grains of rock found on beaches and deserts.
3. Ocean animal with a hard shell and large claws.
4. A moving ridge on the surface of water.
5. A creature that swims in a vertical position with a head like a horse.

Can you help the rocket navigate through space?

Start
Sudoku

How to play: Each of the four blocks has to contain all the numbers 1-4 within the squares. Each of the nine blocks has to contain all the numbers 1-9 within its squares. Each number can only appear once in a row, column, and box. You can solve by getting one of each number into a square, and as you get further along you can also solve by filling in missing numbers to a column or row. Remember, each line and each box needs one of each number.
Give this alien a friend.
