Dots and Boxes

Two Players

Directions: Each player needs a different colored crayon or pencil. Player 1 starts by drawing a line connecting two dots anywhere on the grid. Next, player 2 draws a line joining two dots anywhere on the grid. Take turns drawing lines joining two dots at a time. You can only draw lines horizontally and vertically, not diagonally. The goal of the game is to complete the fourth side of a square. Put your initials in the box after you make a full square. The person with the most boxes wins!
