

## WEEK 4 WRITING PROMPT

### LEGO

The kids would be creating a story using their imaginations to create their own LEGO worlds. They can combine the worlds of other LEGO properties into one if they want to, like having a crossover where the worlds of Harry Potter, Star Wars, and Batman meet.

The kids would be creating a story as if they were a master builder. A master builder in the LEGO universe is someone who can make unique creations out of LEGOs. The story would be them being a master builder and they can include other LEGO characters in their stories too.
